

Numvax.com — Technical Specification & Buyer Guide

Complete Platform Documentation & Buyer Handover Report

1. Executive Summary & Platform Overview

- Domain: <https://numvax.com>
- Niche: Free Online Utility Tools, PDF Suite, Batch Image Processors, QR Generators, Calculators.
- Total Ecosystem: 184 Static Pages covering 71+ interactive web applications.
- Monetization: Built-in Google AdSense slots (Header, In-Content, Below Results, Sidebar).
- Key Advantage: Zero Server File Overhead (\$0/mo file storage cost). 100% of image compression, PDF editing, and QR generation.

2. Full Technology Stack

- Frontend Framework: Next.js 16.3.0 (App Router Architecture with React 19).
- Programming Language: 100% TypeScript 5.x with strict type safety across all components.
- Styling & Design Tokens: TailwindCSS v4 with Vanilla CSS design tokens.
- Rendering Strategy: SSG (Static Site Generation) pre-rendering all 184 pages for <0.5s load speeds.
- Icons & UI Primitives: Lucide React icon set (lucide-react).
- ORM & Database: Prisma ORM (prisma/schema.prisma) supporting PostgreSQL, Supabase, Neon, or MySQL.
- Analytics & Admin Storage: Prisma models for daily usage statistics and contact inquiries.
- Infrastructure & Hosting: Deployed on Vercel Edge CDN with automated SSL/TLS certificates.

3. Storage & Privacy-First Architecture (\$0 Cloud Bill)

- Server File Storage: 0 Bytes Required. Photos and PDFs never touch server disk storage.
- Client-Side Execution: Image compression, PDF manipulation, and QR generation run inside browser RAM.
- Zero Server Hosting Bills: No AWS S3 bucket fees or server CPU bandwidth costs as traffic grows.
- Automated GDPR / CCPA Compliance: Zero file storage eliminates data leakage risk entirely.

4. Key Questions & Answers for Buyers

Q1: What are the monthly running costs for host & database?

Answer: Near \$0 / Month. Hosted on Vercel starter tier. Browser execution keeps server load near zero.

Q2: How hard is it to add a new tool or calculator?

Answer: Very easy. Adding a tool entry to `src/lib/toolCatalog.ts` auto-generates its SSG page, sitemap entry, breadcrumbs, and JSON-LD schema.

Q3: Is the code well-structured and typed?

Answer: Yes, 100% TypeScript with modern Next.js 16 App Router conventions.

Q4: Is the site ready for Google AdSense monetization?

Answer: Yes. AdSense slots are pre-configured in `AdSlot.tsx`. Simply swap in your publisher ID.

Q5: What assets are included in the sale?

Answer: Domain name (numvax.com), source code repo, Vercel project, IndexNow key, and brand logo.
